

Activate your team in seven steps.

One AWS administrator completes this once. Your team can then sign in to CloudOpsGPT immediately.

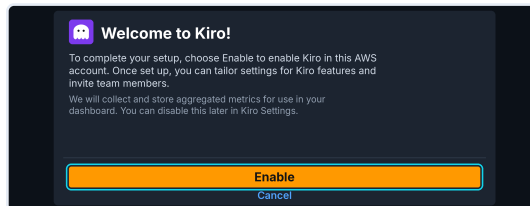

- 1 Start setup**
Open Kiro in the AWS Console

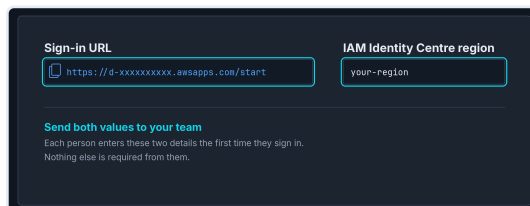

- 2 Pick identity**
Identity Center or your own IdP

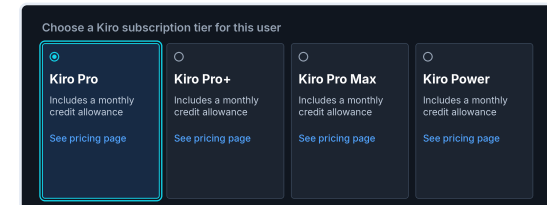

- 3 Enable Kiro**
Creates your Kiro profile

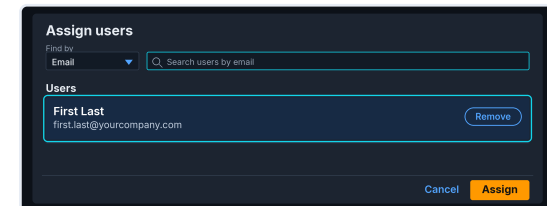

- 4 Copy two values**
Sign-in URL and region

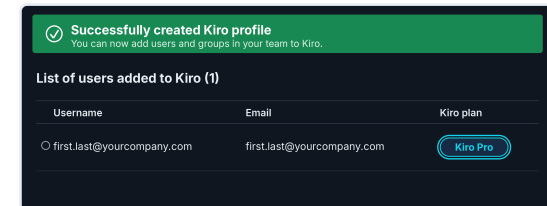

- 5 Choose a tier**
Charged per user, changeable later

- 6 Assign people**
By user or by group

- 7 Team is live**
Everyone appears on the plan

WHAT YOUR TEAM RECEIVES

The **Sign-in URL** and **IAM Identity Centre region** from step 4 — the two details each person enters when they sign in to CloudOpsGPT.

- ✓ Once per organisation
- ✓ Adding people later takes a minute
- ✓ Guided by our team
- ✓ Plans can be changed anytime

PREFER WE RUN IT WITH YOU?
